Always use the top center of the windshield as your reference point.

measurements when ordering a cabin cover for a Low Wing Aircraft. Provide OAT measurement when ordering a high wing cabin cover.

Draw any antenna not pictured. We cover all antenna except for the large Ram's Horn (flying V) for which we build the cover around its base. If you have an outside air temperature probe, please measure for it as well.

What type of object? A, B, C, D, E, Outside Air Temp (OAT) or ADF, Other	#1	#2	#3	#4
Is it offset to the left or right of the center line? If so, please indicate left or right and measure the distance from the center line. Example ( L 3")				
What is the distance from the top center of the windshield to the front of the base of the antenna (measuring straight back on the center line)?				
What is the length of the base? _____				
What is the width of the base? _____				
What is the length of the antenna (from base to tip)? _____
